

[REDACTED]
Witness
9/1/2018

On Thursday August 16th there were two parties that [REDACTED] and I attended. The first one was at 207 W Stadium at a swimmer friend's house. It started around 8pm and that is where I saw [REDACTED] and [REDACTED] for the first time. [REDACTED] brought two other friends with her to the party so me and [REDACTED] started a conversation with them. We were talking and getting to know each other. After the first party was over, a group of friends including [REDACTED] and her friends went to another party. I was in that group too. In the second party, I did not see [REDACTED] and [REDACTED] for most of the time while we were there. I just saw him at the very end when the party ended. So far, through my perspective, the interactions between [REDACTED] and [REDACTED] were normal. I never saw any signs of violence or aggressive behavior throughout the whole night. After the second party was over, [REDACTED] myself, [REDACTED] and one other friend of [REDACTED] walked back to [REDACTED] dorm. We walked them back because to make sure they were safe. On our way back I clearly remember [REDACTED] talking about how she got sexually assaulted by another black male not too long ago. She said that she got drunk and went to a restroom. This other male walked in and she gave him oral sex too. By the time we were walking back I believe we were all sober. In my opinion, we were all conscious of our words and actions. We got to their dorms, and I had to use the restroom so [REDACTED] and [REDACTED] went to [REDACTED] room and myself and [REDACTED] friend showed me where the restroom was. After I was done, [REDACTED] friend and I went to in front of [REDACTED] room. I opened the door, and I saw [REDACTED] giving oral sex to [REDACTED] had all his clothes on while [REDACTED] did not have her shirt on. I could see clearly how she was not getting forced to do anything, and she seemed to do all the work. I closed the door right after I saw it, and I promptly left the dorms.
